The ULTIMATE warm edge spacer bar

Engineered in Switzerland

www.swissspacer.com
The warmest edge – from the leading innovator

The high-performance SWISSPACER ULTIMATE spacer bar has impressively low thermal conductivity (Lambda value) at the edge of the insulating glass. It also has outstanding Psi values and correspondingly low U-values for windows and façades. SWISSPACER ULTIMATE is one of the best warm edge spacer bars in the world according to the ift guidelines WA-17/1 and WA 08/3.

Energy saving

The best thermal values in the world

Comfortable

Stops 100% of gas and moisture vapour transmission

Aesthetic

The widest range of colours and widths on the market, in a matt finish
